

OAKBROOK VILLAGE CONDOMINIUMS

PATIO FENCE PAINTING

During the next few weeks our contractor Roger Bowman will be painting patio fences, including yours. Unpainted fences and previously stained fences that have faded will be painted.

All fences will be painted dark brown to match the trim on the buildings. We realize that some unit owners prefer the stain, but we have found that it doesn't hold up very long against our sun and weather, and the stain costs quite a bit more than the paint. A study was made by the Board of Administrators and it was decided to use the dark brown color of paint for the patio fences. Also, it was decided that all patio fences will eventually be painted the dark brown color to maintain uniformity.

Please move all items away from your fence, and remove any items attached to the fence to enable Roger and his crew easy access to the fence, and to prevent any breakage or damage to your possessions.

If you have any questions please contact me, Ed Morgan, at 437-2868 or Roger Bowman at 694-4814.
